Flexible chairs for lab & workshops

In workplaces like labs and precise components workshops, flexible chairs with the fabric without incurring incident are indispensable. LUX and HERO are the twins that always strike the right note in the office. Upholstered seat and backrest with high-density foam and anti-static PU surface combines comfort and professionality. Adjustable back and height of the seat provide flexibility to work. Swivel five-star legs with smooth PA wheels makes the movement more freely, offering convenience while bursting creation and productivity.
